Professional Summary

AI and Cloud Engineer building practical Generative AI, LLM-powered, and cloud-native solutions. Skilled in RAG, multi-agent workflows, AI-driven automation, and cybersecurity, with a focus on turning complex use cases into effective, scalable implementations. Combines engineering execution, research, and leadership to deliver impactful technology solutions.

Professional Experience

AI & Cloud Engineer **June 2026 – Present**
Technophiles Den Pvt. Ltd. *India*

- Translate practical business and technical use cases into AI/ML and Generative AI prototypes and proof of concepts, using LLM integrations, workflow automation, and cloud technologies to develop implementable solutions.

Cyber Security Intern **March 2025 – May 2025**
Ediglobe *Remote*

- Analyzed phishing campaigns and attack methodologies, explored defenses against common web vulnerabilities, and developed an authentication system designed to resist SQL injection.

Education

Dr. Vishwanath Karad MIT World Peace University (MIT-WPU) **2023 – 2027**
B.Tech in Computer Science (Cyber Security & Data Forensics) Pune, India
CGPA: 9.16/10

Delhi Public School, Ranchi **2021 – 2023**
Class XII – CBSE **94.6%**

St. Thomas School, Ranchi **2009 – 2021**
Class X – ICSE **94.6%**

Projects

BidForge – AI-Powered RFP Analysis & Proposal Automation | TypeScript, LangChain, MongoDB, AWS S3

- Built a multi-agent LLM pipeline using LangChain and Gemini 2.5 Flash for RFP analysis and proposal generation; implemented RAG-based inventory matching with HuggingFace embeddings and MongoDB Atlas Vector Search, plus AWS S3-backed PDF generation, reducing proposal turnaround from days to minutes.

Omniscient – AI-Powered Cyber Forensics | LLMs, Web Scraping, API Reverse Engineering

- Combined LLMs, web scraping, and API reverse engineering to automate social-media intelligence extraction and AI-assisted digital investigation.

RakshaNetra – Proactive Data Leakage Prevention | Privacy Engineering, Text/Image Redaction

- Designed a local-first approach to reduce sensitive-data exposure to LLMs and browsers through real-time text and image redaction before transmission.

VACARS – Voice-Assisted Context-Aware Response System | Raspberry Pi, Generative AI, Computer Vision, IoT

- Integrated object detection, audio processing, and Generative AI with Raspberry Pi, an auto-actuated faceplate, and an LED interface for context-aware assistance.

Research Publications & Intellectual Property

- **IEEE Conference Paper:** *An Early-Exit Hybrid Intrusion Detection Architecture for Resource-Constrained IoT Edge Devices.*
- **Published Patent – Application No. 202521077464:** *A System and Method for Dynamic Cybercrime Investigation Using Automated Data Extraction and Analysis.*
- **Cureus / Springer Nature:** *Integrating Computer Vision and Large Language Models for Real-Time Blind Navigation.*

Technical Skills

AI/Generative AI: LLM Integration, RAG, Multi-Agent Systems, Computer Vision, Workflow Automation
Cloud & DevOps: AWS, GCP, Docker, Kubernetes, Jenkins, CI/CD
Programming: Python, C++, Java, TypeScript, MERN Stack
Data Engineering: MySQL, MongoDB, PL/SQL, Hadoop, Hive, PySpark
Cybersecurity: Digital Forensics, Phishing Analysis, Web Security, Secure Coding, SQL Injection Mitigation
IoT & Systems: Raspberry Pi, Sensors, Microcontrollers, REST APIs, Linux, Git

Certifications

- AWS Certified Developer – Associate | AWS Certified Machine Learning Engineer – Associate
- Oracle Cloud Infrastructure Foundations Associate | Cisco Endpoint Security

Leadership & Achievements

- **Youngest Judge:** Eureka IIT Bombay X Ignition T3 Trinity Academy Of Engineering.
- **Hackathons:** 2nd Place – Ignisia (National AI Hackathon) April 2026,– 5th Place – Ciphathon (National CyberSecurity Hackathon) March 2026,– 2nd Place – RenAIssance 2025 (CSI MIT-WPU & WorqHat).
- **Speaker:** CWPRS Pune 2026 – "Think Before You Click" and DevConf 2025 – "AI in Cybersecurity".

Core Strengths:

Strategic Leadership, Strong Communication, Efficient Team Management, Adaptive Collaboration, Analytical Thinking.
